

Solo traveler option

From our rich experience in organizing small group tours, we know that solo traveling is becoming more and more popular. Previous seasons, over 50% of travelers on our small group tours were traveling solo. Whatever your reasons are, traveling solo can be one of life's most rewarding experiences.

Most of our scheduled departure tours are based on combining different tours and itineraries, but each one you choose is unique, as described in the program. We usually have at list several participants on each tour, but sometimes, especially in this difficult for tourism period, it happens to have only one person booked for certain tour and departure date.

We respect all solo travelers who like and book our tour offers and we do not want to charge you more when you join a group as solo traveler.

From the other side, for us, shared group tour costs like transportation and guide services are increasing rapidly with only one person on tour.

This is the reason that we are offering this "Solo traveler option"

Solo traveler tour supplement applies when only one person is traveling on that date and tour.
